

QM1-KW80

Kenwood Remote Mount Control Head Kit

This simple kit allows remote mounting and operation of the control head of Kenwood TK-780 / 880 / 980 / 981 mobile radios. By removing the control head from the body of the radio and installation of the QM1-KW80 remote cabling kit the radio becomes a remote mount or trunk mount radio.

The QM1-KW80 kit includes:

- Back plate control head cover
- Radio body cover
- Control head mounting bracket
- 15 foot RS-232 interface cable

Please note that this application may require an external speaker.

Part number: 431-QM1-KW80
